Art Gallery Exhibition

During the month of September, **Stephanie Gibson** will display her works of art in the McCloud Campus Center Art Gallery on the Founders Campus.

Stephanie is an acrylic painter exploring color and texture. She has always been interested in the visual arts. As a child, Stephanie loved to draw. In high school and college, she enrolled in art history classes. Though her major was Theatre, one of her favorite classes in college was a Graphic Design class. In her opinion, the best way to spend an afternoon is by wandering an art museum. Despite the interest, she did not make painting a daily practice until she found herself with abundant time during the pandemic.

As a painter, she finds herself drawn to the exploration of color and an expression of the wildness and beauty of the natural world. She lives in the woods, in a house built by her great-grandparents. When gardening or taking her daily walk, she cannot help but think of the generations of her family who loved and tended to that place. This connection to layers of family history, a history that includes a deep connection to the land and working outdoors, is part of every painting she creates. Even in her abstract paintings, there is a process of building up layers and history which reflects this interest.

A Grand Opening Wine and Cheese Reception will be held in September.
